# KIDS' CHANCE OF ARIZONA

Kids' Chance of Arizona provides scholarships to the children of Arizona's injured workers. Our mission is to fulfill the dreams of many children who cannot reach their potential without help. A legitimate on-the-job accident is devastating not only to the individual employee but to the employee's children.

Kids' Chance of Arizona provides scholarships to children of workers who are severely injured or died on the job. Our most reliable supporters include insurance companies, physicians, medical service providers, medical equipment providers, vocational experts, employers, insurance brokers, and attorneys (for injured workers and for insurance carriers and employers). Naturally, we are inextricably linked to the workers' compensation community.

Kids' Chance of Arizona has provided over 300 scholarships and has raised over \$700,000 to date.

HEARTS OF GOLD

# COMMUNITY BREAKFAST 2018

Kids' Chance of Arizona is launching its first ever Hearts of Gold Community Breakfast fundraiser. Funds raised during this signature event go directly back to helping families through scholarships.

Guests of our Hearts of Gold Community Breakfast will experience a moving, memorable portrait of Kids' Chance of Arizona's impact on families whom have lost a significant family member. Our goal this year is to have 200 guests attend the fundraiser and raise \$75,000 or more. This will support three full ride scholarships.
